

Enterprise risk management is a critical corporate function of any successful organisation, both in day-to-day decision-making and strategic planning. The Pacific Rim Actuaries' Club of Toronto, in collaboration with the Joint Risk Management Section of the Society of Actuaries (SOA), are very pleased to offer a new "Ask The Experts" forum on Monday, July 18th, 2011.

Attendees will be able to gain insight of three CRO's, and to explore how they leverage ERM to gain competitive advantage for their organisation. PRACT business workshops may be counted toward your CIA CPD credits. Please see the [registration form](#) for more details.

To register, simply email your registration details (event = workshop, name, member or non-member, company, phone number) to registration@pacificrimactuaries.ca. Register before July 13th to qualify for the early bird rate and special draw prize - a [Kobo Touch eReader](#). Any payment can be made at door.
Space is limited, so please register early.
